Cooperation of innovation and exchange of good practice

This project has been funded with support from the European Commission. This web site reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.
The question of intercultural skills and of non-discrimination in secondary schools have been asked by students, their teachers, their heads of schools, and experts in education in Belgium, Italy, Lithuania, Greece, Portugal and France.

The outcome of this two-year experience is the identification of good practice, transferable to every school which welcomes foreign students.
